## Curriculum Vitae

Overview/ Highlights	1
Formal Education	2
Association Memberships	2
Founder	2
Contributions to Veterinary Artificial Intelligence	2
Lectures and Presentations	3
Authorship	6
Featured Or Quoted	7
Reviewer of Peer Reviewed Articles	8
Professional Affiliations	8
Veterinary Seminar Attendees	8
Animal Control Lecture Attendees	12
Feedback after presentation at the Western Veterinary Conference Y2K	14
Letter of Recommendation after CanWest Intl Meeting	15

### **Overview/ Highlights**

- Doctorate in Veterinary Medicine, U. C. Davis (Graduating Student Body President)
- Minor in Philosophy with Special Interest in Logic and Ethics
- Internationally Certified Animal Behavior Consultant (CABC)
- Taught a behavior course at 8 US Veterinary Schools and internationally (Cayman Islands)
- Elected in 2009 to a 6 yr. term on the AVMA Council on Veterinary Service (COVS)
- Chair, COVS Subcommittee on Animal Health Information Standards
- President-Elect, Society of Veterinary Medical Ethics
- Chapter co-author, “*Encyclopedia of Animal Behavior*”
- Keynote and Top Rated Speaker at CanWest 2011 International Veterinary Conference in Canada
- Appeared on Animal Planet Network 22 times as, “Content Expert”
- Founded new Veterinary Telemedicine practice, “Televeterinary Psycho-Medicine” (PsyMed)

## **Formal Education**

- 2008 Certified Animal Behavior Consultant by the International Association of Animal Behavior Consultants (IAABC-CABC)
- 1979 [Doctorate Degree: D.V.M. Doctor of Veterinary Medicine, University of California, Davis](#)
- 1975 *Bachelors of Arts Degree (cum laude) Music Major, (CSULA)*  
*Undergraduate Minor in Philosophy; Special Interests: Logic and Ethics*

## **Association Memberships**

- American Veterinary Medical Association ([AVMA](#))
- American Veterinary Society of Animal Behavior ([AVSAB](#))
- International Association of Animal Behavior Consultants ([IAABC](#))
- Portland Veterinary Medical Association (Portland VMA)
- Society for Veterinary Medical Ethics ([SVME](#))
- Veterinary Future Society ([VFS](#))
- Association for Psychoneurocutaneous Medicine of North America ([APMNA](#))

## **Founder**

- [Veterinary Telecommunications](#) (Corporate entity filed in Washington state)
- [Animal Behavior Network](#) (Behavior services for veterinary companion animal practice)
- [Pet Happiness Network](#) (Online Stress Test with Integrated Artificial Intelligence)
- [Pet Behavior History](#) (Online Behavioral Questionnaire with Integrated Artificial Intelligence)
- [PsyMed Consulting](#) (One Health Mental Wellness Practice)
- [Pet Expert Witness](#) (Legal Services, Including an Online Course for Attorney CLE)
- [Veterinary Future Society](#) (Online community interested in the future of Veterinary Medicine)

## **Contributions to Veterinary Artificial Intelligence**

- Veterinary Think-Trust to steer veterinary practice after the AI Singularity  
[How Veterinarians Can Save the World at the AI Singularity](#)
- Advocating that the AVMA and every veterinary stakeholder be included in the process of preparing for Machine Super-Intelligence.
- Pet Happiness Network - a software platform for any trainer, veterinarian, or other pet professional to share a common A.I. platform for sharing pet behavioral records, or consulting and therapy.
- Washington State Telemedicine Certification 07-29-21 [LINK](#)

## **Lectures and Presentations**

<b><u>Date</u></b>	<b><u>Location</u></b>	<b><u>Topic</u></b>
01/07/96	UC Davis, CA;	VetSmart Wellness Symposium
02/11/96	Ohio State University, Columbus, OH	
03/09/96	Oklahoma City, OK;	National SAVMA Symposium
03/29/96	University of Illinois;	SCAVMA Meeting
09/29/96	University of Missouri;	VetSmart Wellness Symposium
10/07/96	St. Paul, MN;	SCAVMA Meeting
11/07/96	Tokyo, Japan;	Vets 21 Annual Meeting, Featured Speaker
11/19/96	Iowa State Vet School;	VetSmart Wellness Symposium
11/21/96	Colorado State University;	SCAVMA meeting
01/05/97	U.C. Davis;	VetSmart 2-day Symposium
01/25/97	Philadelphia, PA;	Penn Conference
01/28/97	University of Pennsylvania;	SCVMA meeting
03/16/97	Purdue University, IN;	National SAVMA Symposium
04/02/97	Birmingham, England;	Int'l Conference on Animal Behavior (Presented Poster Paper)
08/03/97	Chicago, IL;	VetSmart Presents
08/26/97	CSU;	Applied Small Animal Behavioral Medicine (3 day course for junior vet class)
09/11/97	Santa Maria, CA;	Mid-Coast VMA
10/05/97	Seattle, WA;	ContinuEd 1 Day Behavior Seminar
11/02/97	Denver, CO;	ContinuEd 1 Day Behavior Seminar
11/16/98	Berkeley, CA;	ContinuEd 1 Day Behavior Seminar
02/11/98	Cal Polytechnic University, Pomona, CA;	Medical Nursing, RVT College Course
03/01/98	San Diego, CA;	ContinuEd 1 Day Behavior Seminar
03/13/98	Gainesville, FL;	National SAVMA Symposium
03/15/98	Ft. Lauderdale, FL;	ContinuEd 1 Day Behavior Seminar
03/27/98	OK State Vet School;	Applied Animal Behavior (elective course)
03/28/98	OK State;	Local VMA 1 day CE
03/29/98	Dallas, TX;	ContinuEd 1 Day Behavior Seminar
04/05/98	Portland, OR;	VetSmart Presents
04/15/98	U of Wisconsin Veterinary School;	Applied Animal Behavior (elective course)
04/16/98	Chicago, IL;	ContinuEd 1 Day Behavior Seminar
04/26/98	Hartford, CT;	ContinuEd 1 Day Behavior Seminar
05/03/98	Boston, MA;	ContinuEd 1 Day Behavior Seminar
05/04/98	Westbrook, MI;	IDEXX Lunch and Learn
05/31/98	Seattle, WA;	VetSmart Presents
08/25/98	CSU;	Applied Small Animal Behavioral Medicine (3 day course for junior vet class)
08/30/98	Kansas City, MO;	Central Veterinary Conference (9 hours of lecture incl. DVM and RVT)
09/13/98	Arlington VA;	ContinuEd 1 Day Behavior Seminar
11/15/98	Annapolis, MD;	VetSmart Presents
02/21/99	Aspen, CO;	ContinuEd 4 day Ski Retreat and CE

05/06/99 LA County Animal Control; Lectures to Staff on Animal Behavior

02/22/00 Las Vegas, NV; Western States Veterinary Conference

02/25/00 Columbus, OH; Midwest Veterinary Conference

03/17/00 VA/MD Vet School; National SAVMA Meeting

04/29/00 Philadelphia, PA; VCA Presents (one day behavior seminar)

06/11/00 Albuquerque, NM; VCA Presents

06/25/00 Atlanta, GA; VetSmart Presents

08/14/00 University of Illinois Veterinary School; Applied Animal Behavior (16 hour course)

08/21/00 Denver, CO; VetSmart Presents;

08/22/00 Colorado State University; Applied Animal Behavior (16 hour course)

09/17/00 Phoenix, AZ; VetSmart Presents

10/01/00 Oklahoma City, OK; VetSmart Presents

01/21/01 Orlando, FL; Invisible Fence Company; National Meeting Keynote Speech

02/11/01 Las Vegas, NV; Western Veterinary Conference

02/24/01 Columbus, OH; Midwest Veterinary Conference, OVMA

03/08/01 Ames, IA; National Student AVMA Symposium

03/29/01 Colorado State Veterinary School; Applied Animal Behavior (16 hour course)

04/19/01 University of Wisconsin Veterinary School; Applied Animal Behavior (16 hour course)

05/19/01 South Lake Tahoe, CA; California Tri-Valley Veterinary Meeting, Only Presenter

06/07/01 Jekyll Island, GA; Georgia State Veterinary Meeting, Featured Presenter

08/24/01 Kansas City, MO; Central Veterinary Conference (speaking 3 days)

09/20/01 Anchorage, AK; Alaska VMA State Meeting

01/13/02 Ft. Myers, FL; Invisible Fence National Corporate Meeting, Keynote Speaker

01/31/02 University of Wisconsin Veterinary School; Applied Animal Behavior (16 hour course)

02/03/02 Madison, WI; DVM CE, *Introducing Clinical Behavioral Medicine into Practice*

02/08/02 Colorado State University, Ft. Collins, CO; Applied Animal Behavior (16 hour course)

04/21/02 Atlanta, GA; Greater Atlanta VMA Annual meeting, Featured speaker

08/21/02 University of Missouri Veterinary School; Applied Animal Behavior (16 hour course)

02/28/03 Kansas State Veterinary School; Applied Animal Behavior (16 hour course)

03/28/03 Virginia-Maryland Veterinary School; Applied Animal Behavior (16 hour course)

03/12/04 Knoxville, TN; National SAVMA Symposium

03/25/04 Georgia VMA; Applied Animal Behavior (16 hour course)

04/17/04 Maine VMA; 6 hour, 1 day Seminar

10/17/04 Cincinnati VMA; 7 hr, 1 day Seminar

10/17/04 Cincinnati VMA; 7 hr, 1 day Seminar

01/29/05 Indiana VMA; 1 day CE seminar

03/17/05 University of Wisconsin; Applied Animal Behavior (16 hour course)

08/08/05 North Dakota VMA; Applied Animal Behavior (10 hours over 2 days)

08/11/05 Pennsylvania VMA; Applied Animal Behavior (12 hours over 3 days)

01/28/06 Indiana VMA; 2 day Seminar

04/24/06 Mississippi State University; Applied Animal Behavior (16 hour course)

06/10/06 North Carolina VMA; 2 half-day lectures

06/22/06 Vermont VMA; 2 days of lectures

08/11/06 Pennsylvania VMA; 3 days of lectures

10/06/06 Kentucky VMA; 2 days of lectures

11/03/06 Illinois VMA; 2 days of lectures

01/07/07 Portland, OR; Banfield Symposium – Feline Behavior, 2 days of lectures

04/16/07 Mississippi State University; Applied Animal Behavior Course

05/04/07 Anaheim, CA; Golden State Vet Conference

06/25/07 Montana State VMA; 2 days of lectures on behavior

11/02/07 Illinois State VMA; 2 days of lectures on behavior

01/13/08 Pennsylvania VMA; 2 days of lectures

01/28/08 So. Calif. Dog Trainers Forum; Presented Aggression Case Study

02/21/08 Virginia VMA; 1 day of lectures

04/16/08 Mississippi State Vet School; Applied Animal Behavior Course

08/06/08 Southern Calif. VMA; Behavior Symposium with Gary Landsberg (1/2 day)

01/16/09 NAVC North American Veterinary Conference; 2 hours

01/31/09 Washington State VMA; One day seminar

02/26/09 Virginia Veterinary Medical Assn; One day lecture and one half day puppy lab

04/20/09 Los Angeles County Animal Care (5 locations)

06/18/09 Montana State VMA; 2 days of lectures

10/10/09 Kentucky State VMA; 2 days of lectures

01/26/11 Cal Poly RVT Education Program; Guest Lecturer on Behavior

08/27/11 Big Dogs, Big Brains, Great Dane Fanciers Society

10/20/11 CanWest International Vet Meeting; Keynote Speaker and 3 days of lectures

11/12/11 Pennsylvania State VMA Annual Meeting; one full day

10/11/13 Wild West (Tri-state) Veterinary Meeting; 1.5 days of lectures

11/07/14 Illinois Veterinary Medical State Meeting; 1.5 days of lectures

04/15/15 Kansas State Vet School; *Overview of Behavioral Diagnosis* (1 hr)

09/26/15 Community Animal Talk; *Secrets of Canine Aggression* (100+ from the community)

11/15/15 Online; *Canine Aggression Resulting in Dog Bites*; 1.25 CLE [www.attorneycredits.com](http://www.attorneycredits.com)

02/26/16 St. Matthews Veterinary School, Grand Cayman; *Advances in Behavioral Medicine*

05/13/16 International Assn of Forensic Veterinarians; *Canine Aggression and Euthanasia*

07-05-16 Science on Tap Lectures, Portland, OR; *Scientific Approach to Raising an Ideal Dog*

03-14-17 Science on Tap Lectures, Portland, OR; *Inside the Feline Mind* (Alberta Rose Theater)

09-07-17 Leon, Mexico; CVDL 2017 International Veterinary Meeting

04-07-18 Vet Innovation Summit 2018, TX; *Should Televeterinary Practitioners be Globally Certified? “Defining Telemedicine, Teleconsulting, and Pet Owner Education” “When is a Telemedicine Exam Preferable to a Physical Exam?”*

07-15-18 Denver, CO; AVMLA 2018, AVMA Annual Meeting, *Future of Televeterinary Practice*

## **Veterinary Seminar Attendees**

This program was excellent. The best part was Dr. Tripp himself. He is a wonderful speaker. He is humorous, and he accurately describes what is going on inside the dog's head. Bring him back on any topic he wants. I wouldn't miss it.  
Seattle DVM

This was one of the most practical presentations I've attended in the last 2.5 years. Very relevant.  
Orlando DVM

This is the 4<sup>th</sup> time I've heard Dr. Tripp speak. I consider his information to be amongst the most important that we've learned in vet school. I will be a disciple for life!  
Liz Harriger, Veterinary Student

I will change the way I practice after hearing this talk.  
San Diego DVM

This was excellent information, very relevant to daily practice. I think it will result in better client-pet interactions and bonding. This could save a patient's life!  
Minneapolis DVM

One of the best lectures I've attended in 25 years.  
Pennsylvania DVM

Behavior is the future of Vet Med. Many lives can be saved by understanding basic behavior and common problems. I would love to know more about Dominance Aggression and basic canine/feline behavior.  
Annapolis, VMD

I thought the most valuable part of this seminar was the afternoon puppy handling demonstration. The speaker was excellent.  
Minneapolis DVM

I thought this program was excellent, and very worthwhile. I would recommend more time to let Dr. Rolan Tripp talk about this and other topics.  
Kansas City

Dr. Tripp is an excellent speaker who is able to download a lot of information while keeping the audience's undivided attention.  
Chicago

Dr. Tripp was very informative and I felt that I could implement the beginnings of a behavioral program right away - he rekindled my enthusiasm for practice.  
Pennsylvania DVM

Dr. Tripp is a great speaker! I would love a whole seminar on puppy behavior.  
Minneapolis CVT

This seminar was superior. It covered extremely relevant subject matter in a very informative style. This speaker keeps one interested because it was fun!  
Seattle Attendee

Dr. Tripp was very informative and knowledgeable. I very much enjoyed his lecture. I did not get bored. I feel that his tools and techniques will be very useful in my hospital. He was easy to understand, and open to questions. I would highly recommend his lectures to my colleagues.  
San Diego DVM

Dr. Tripp is very knowledgeable about behavioral modification and presented many interesting cases. If anyone wants to know more about managing a pet's perception they should attend this seminar.  
Minneapolis

The speaker was great and gave good, practical information. Very worth while attending.  
Minneapolis DVM

Of all the behavior lectures I've attended in the past few years, Dr. Tripp has offered the most interesting lectures with very clear information about beginning to offer behavior services in private practice.  
Pennsylvania DVM

This seminar was very easy to follow – good ideas on how to approach owners with behavioral information. I think this is very helpful for starting a behavioral program in a clinical setting.  
Minneapolis

The characteristics and responses you were giving to the dogs in your scenarios were very real...I caught myself thinking, "That is totally right!"  
Kansas City

I wish other vets would give this info to puppy/dog owners. What a difference it would make. I lost a dearly loved pet because of behavior ignorance by my vet.  
Kansas City Behaviorist

Rolan Tripp has given me the best behavior seminar I ever went to. Too bad he is not speaking both days.  
San Diego DVM

The presentation of the Barking and Digging Differential Diagnosis was extremely useful.  
DVM Kansas City

This seminar was excellent, but too short! All veterinarians could increase their revenue and save lives by practicing behavioral modification. It's just good medicine.  
Seattle

This speaker has a great wealth of information and a host of practical experience. Really interesting to listen to him. This was excellent.  
Seattle

I would rate this seminar as "Excellent." It gave me a better understanding of what the animal is really feeling, instead of only looking at them through our own eyes. Please offer more presentations like this one.  
Seattle Attendee

This superb program is very much in touch with what clients want. An excellent start to helping clients from day one.  
Seattle

Take your staff!  
Seattle

I found this to be a very valuable experience. This was a vibrant speaker with great value-added hints and tools for practitioners. Excellent speaker and overall very valuable experience.  
Orlando

I think this program was excellent in every category. The information was presented in an interesting way. This is a great presentation for non-DVM staff, as well as the DVMs. Please bring Dr. Tripp back!  
Seattle

I came because I have heard of Rolan Tripp before. I strongly recommend any seminar he is connected with. An exceptional speaker who is entertaining as well as informative.  
Seattle

This was an excellent speaker and overall seminar. Please present more behavior info. Bring Dr. Tripp back so more people can get his message!  
Annapolis, MD

Great speaker. Clinically relevant. Excellent presentation. Please present more seminars on behavior.  
Seattle

Thank Dr. Tripp for making available his Socialization and Behavior Modification Manual.  
Chicago

I have used many of Dr. Tripp's Techniques since Graduating in 1999, and have found them to be easy to use and easy to understand for clients. I have seen dramatic changes in the lives of pets involved.  
Cincinnati DVM

This was an excellent educational presentation. Extremely clinically relevant.  
Orlando

This was a concise seminar addressing several of the most common behavior problems brought to a veterinarian's attention by an owner. It was valuable time where easily adopted interventions were described. I recommend this seminar to any DVM, and bring your staff!  
Chicago Attendee

I loved the practical demonstrations in the hospital setting. I felt the evening presentation was a VERY good presentation on common, significant clinical problems. Excellent, practical information, the speaker was excellent!  
Chicago

Very good seminar. As always, there is a lot more to learn that we could get on this subject in a day seminar. Excellent topic and speaker!  
Cincinnati DVM

Dr. Tripp is a very entertaining speaker, and yet delivers everything you need to know about a topic.  
Annapolis, MD

The whole seminar was excellent, but my favorite part was the live demonstration with the puppies!  
Ft. Lauderdale

This was an excellent entertaining speaker with practical, usable knowledge. I particularly appreciated specific steps to use in practice and for owners to use at home.  
Ft. Lauderdale

I liked his (Dr. Tripp's) sense of humor in the way he broke down a difficult concept so vet or staff can remember it and work with the client to solve the problem. This is the best CE program I have been to in years.  
Ft. Lauderdale

## **Animal Control Lecture Attendees**

I found Dr. Tripp to be an excellent speaker, knowledgeable in his field of expertise. He kept my attention even though I was tired. A very interesting program. My favorite part was the psychology of dogs and understanding what the dog is thinking.

K Cygan Shelter 4

This is the kind of class that should be given in the beginning of every employee's training. The speaker was outstanding.

Cintia Reglero, Downey Shelter

I think Dr. Tripp performed a very informative seminar. He is very articulate and full of knowledge. He seemed to be sincere in his love for animals. I liked both the parts on reading the dog body language, as well as the section on infectious diseases.

Sal Chacon, LA County #73

I think Dr. Tripp was outstanding. He seems very honest, and his love for animals seems real. My favorite part of the program was the skin and ear module, as well as the education on parasite and zoonotics.

M Alsa, LA County #1

This was a great learning experience.

N Chavez RSD

I thought all the information presented was valuable. These programs are very much needed by our people for better training purposes. I think this is very important, thank you for providing this seminar.

Ramon Perez, RSD

I believe that all employees at all shelters should take this class, even if they don't go out into the field. I enjoyed understanding canine body language and the context of behavior. The tin can with pennies was a useful tip.

Lisa Nukala-Mirawka, Lancaster

This seminar had a lot of important information that will be helpful in our daily duties to improve the quality of service and public perception of the agency.

C Rocha, LA County

Good Content. Confirmed my current actions and suggested new ideas as well. Easy speaker to listen to and follow. Keep at least one book after so we could review. I liked the details of dominance and human interaction.

Marla D'Antonio Shelter Center 6

This was a very good speaker, he kept the presentation interesting. I enjoyed the information on Canine aggression the most, but all the info presented was valuable.

Ernie Metz, Newport Beach

Excellent class. I'm really impressed. I enjoyed learning about "leadership exercises" people can do to communicate leadership over dogs. The speaker was outstanding.  
James Sellers, Corona Animal Control

Good Speaker! Handouts are good. Pertinent information for this field. Behavior signs and theory was very interesting.  
Jan Glick, Santa Barbara County

The speaker and the program content was outstanding! I could have listened longer.  
Bridget Vice, Corona Animal Control

The speaker's knowledge and presentation was remarkable. There is nothing I would have changed. Great Job!  
Ron Edwards, Irvine Animal Control

This was a great day of learning and refreshing on skills needed and review of those known. The program content was outstanding, nothing was more or less valuable. Please give us more on cat handling and behavior. Sign me up for the next one!  
Kylie Wiggins, Irvine Animal Care Center

What a great speaker! Three Stars. He was easy to understand by his "stories." I enjoyed learning about canine leadership exercises.  
Jackie Jennings, Irvine Animal Control Center

I have worked for Dr. Tripp in the past and I have always enjoyed learning animal behavior from him. I would love to attend any other classes he has. Please send me any information for the future. Outstanding Speaker.  
Melissa White, Banning, CA

Great Speaker. He kept our attention with humor. He used laymen terms, and made situations relevant to everyday shelter life. He did not overdose us with language we can't understand. Thank you for providing this education.  
Sheila Beattis, Pomona shelter

This was a good presentation with visuals and humor! Dr. Tripp was very clear on definitions and presenting info on a basic level. Very entertaining, while also informative.  
Wendy Singer, OCAS

I thought Dr. Tripp was outstanding. He made everything informative, but I particularly liked the discussions of aggression and communicable disease. He reaches and touches the issues that need to be very carefully analyzed by this society.  
Brian Tou

La Mirada, CA 90638

Dear Dr. Tripp:

I wanted to write and let you know that your speaker evaluations from the 72<sup>nd</sup> Annual Western Veterinary Conference (2000) were simply outstanding. Normally, the Conference makes no comment to speakers as we assume that all do a fine job with both content and presentation. However, you were emphatically singled out by audiences for your relevance, clarity, practicality and positive message. While there were many specific, positive comments perhaps the most telling was: "Tripp Rocks!"

We look forward to your puppy development, socialization and aggression control presentations at the 73<sup>rd</sup> Conference to DVM's/Technicians on Sunday evening February 11<sup>th</sup>. As well, I am sure the Japanese delegation will find your insights, summaries and demonstrations quite useful earlier that afternoon. (The latter will need to be limited to a strict 3 hours or less).

Thanks again for being able to hit the mark and help our Conference.

In addition to speaking I am taking the liberty of adding two chairing sessions to your schedule. I trust these will be in interest areas. Manolita will be sending you a speaker's update shortly.

Respectfully yours,

Dr. Stephen Crane

## **Letter of Recommendation after CanWest Intl Meeting**

**AB.VMA**

Alberta Veterinary Medical Association

January 9, 2012

To Whom It May Concern:

**RE: Dr. Rolan Tripp  
Excellent Veterinary Behavior Speaker**

The CanWest Veterinary Conference engaged Dr. Rolan Tripp as our featured veterinary behavior speaker for three days during our 2011 event at the Fairmont Banff Springs Hotel in Banff, Alberta, Canada. During that time Dr. Tripp also provided an outstanding keynote lunch presentation on “The Future of Veterinary Practice – Preventing Veterinary Phobia”.

Dr. Tripp brings the team approach to veterinary behavior services so his presentations are designed for the entire veterinary team. He was the top rated speaker by the attendees at this internationally recognized veterinary conference. Presentation comments from our delegates include, “very knowledgeable, entertaining, excellent speaker, relevant and novel information, the most effective speaker I have ever listened to, practical, creative presentation ideas”.

My experience working with Dr. Tripp was excellent from the start of the pre-conference planning process, followed by he and his wife Susan’s personal on site interaction, through to the post-conference wrap up. Dr. Tripp is extremely professional and he is a great pleasure to work with.

I would not hesitate to invite Dr. Rolan Tripp back to the CanWest Veterinary Conference and I highly recommend him as a creditable highlight to any veterinary conference.

Sincerely,

*M. J. Landals.*

Manager, Communications and Member Services
